

Prime Medicine to Present at 42nd Annual J.P. Morgan Healthcare Conference

January 2, 2024

CAMBRIDGE, Mass., Jan. 02, 2024 (GLOBE NEWSWIRE) -- Prime Medicine, Inc. (Nasdaq: PRME), a biotechnology company committed to delivering a new class of differentiated one-time curative genetic therapies, today announced that Keith Gottesdiener, M.D., President and Chief Executive Officer of Prime Medicine, will present a corporate overview at the 42nd Annual J.P. Morgan Healthcare Conference on Monday, January 8, 2024 at 2:15 p.m. PT (5:15 p.m. ET) in San Francisco, CA.

A live audio webcast of the presentation will be available under "Events & Presentations" in the News & Events section of the Company's website at www.primemedicine.com. A replay of the webcast will be available on the Prime Medicine website for 30 days following the presentation.

About Prime Medicine

Prime Medicine is a leading biotechnology company dedicated to creating and delivering the next generation of gene editing therapies to patients. The Company is leveraging its proprietary Prime Editing platform, a versatile, precise and efficient gene editing technology, to develop a new class of differentiated, one-time, potentially curative genetic therapies. Designed to make only the right edit at the right position within a gene while minimizing unwanted DNA modifications, Prime Editors have the potential to repair almost all types of genetic mutations and work in many different tissues, organs and cell types.

Prime Medicine is currently progressing a diversified portfolio of eighteen programs initially focused on genetic diseases with a fast, direct path to treating patients or with a high unmet need because they cannot be treated using other gene-editing approaches. Over time, the Company intends to maximize Prime Editing's therapeutic potential and advance potentially curative therapeutic options to patients for a broad spectrum of diseases.
